WORK EXPERIENCE

DHRUVA ALLIED PRODUCTS – Frontend Developer

FRONT END DEVELOPER (REACTJS)

Dec 2023 - Present

- **Developed a dynamic employee management dashboard** using **React.js** and **Context API** for state management, improving data loading speed and performance.
- **Implemented user authentication** with JWT for secure login and role-based access control (Admin, Manager, Employee) with token expiration and refresh handling.
- **Created reusable AntD and Bootstrap components** (tables, modals, forms, etc.) to improve scalability and reduce development time.
- **Integrated RESTful APIs** to manage employee records, leave requests, and performance evaluations.
- **Enhanced UI** using **Bootstrap's grid system** and **AntD's form validation**, making the interface more intuitive and user-friendly.
- **Implemented state persistence** with local storage to retain session data even after page reloads.
- **Developed an admin panel** to handle employee onboarding, termination, and role assignments efficiently.
- **Optimized API calls** using lazy loading and pagination to improve data load times.

EDUCATION

SREE DATTHA INSTITUTE OF ENGINEERING AND SCIENCE

Bachelor of Technology (B.Tech) in Computer Science

2019 - 2022

PROJECT

NETFLIX-GPT [🔗](#)

- Built a secure web app with Firebase Authentication, reducing login errors by 30%.
- Integrated TMDB API for a dynamic, multilingual movie library and global user experience.
- Developed GPT-powered search, cutting search time by 20% and boosting user engagement by 25%.

VIDEO STREAMING APP [🔗](#)

- Designed a high-performance video streaming app optimized for scalability and user traffic.
- Implemented video playback, intelligent search, and live chat to boost user engagement.
- Integrated YouTube Free API for diverse video content, enhancing accessibility and satisfaction.

FOOD VILLA [🔗](#)

- Built a dynamic food ordering app with detailed restaurant info and seamless user experience.
- Built a SPA with a multi-page feel, ensuring smooth navigation and enhanced performance.
- Designed a SPA with smooth navigation and Shimmer UI for engaging loading effects.
- Used Redux Toolkit for state management and real-time cart updates.

SKILLS

Frontend Development: React.js, JavaScript, HTML5, CSS3, Redux Toolkit, Context API, Bootstrap, TailwindCSS.

Backend Development: Node.js, Express.js, MongoDB, RESTful APIs, MERN Stack, ,

Tools & Version Control: Git, GitHub, VS Code, NPM, Webpack, Vite.

Soft Skills: Leadership, Problem-Solving, Teamwork, Adaptability, Time Management.

CERTIFICATE

Certified in Advanced React Development [🔗](#)

Node.js Course Certificate [🔗](#)
