👤 SUMMARY

I am a passionate Software Development professional with 2.5+ years of experience in crafting innovative web applications. My expertise lies in developing backend systems, creating user-friendly interfaces, and optimizing code for performance and scalability. I thrive in collaborative, agile environments, focusing on delivering high-quality solutions that drive business success and enhance user experiences

📁 EXPERIENCE

Full Stack Developer

Next Page Technologies Pvt Ltd

01/2024 - Present

Madhapur,
Hyderabad

- Built and enhanced web applications using ReactJs, ExpressJs, and NextJs, focusing on feature development, bug fixing, and performance optimization to improve user experience
- Collaborated closely with cross-functional teams to seamlessly integrate front-end components with Backend APIs and services, ensuring smooth and efficient data flow
- Developed reusable components and libraries, improving development speed and maintaining code consistency across multiple projects
- Gained hands-on experience in building and maintaining web applications using ReactJs focusing on creating dynamic and user-friendly interfaces
- Learned to implement new features and update existing components under the guidance of senior developers, enhancing the functionality of web applications

🎓 EDUCATION

BSc Computer Science

WCCM Degree College

07/2017 - 08/2020

Wanaparthy, TS

🧠 SKILLS
